

**Petition to the House of Commons**

**Whereas:**

- the Government's intention to use the suppressive tools of regulation and restriction to promote Canadian content is contradictory;
- giving the CRTC power to regulate online content provides potential for promoting or suppressing individuals or organizations based on whether their views differ from the those held by regulators,
- the Online Streaming Act will increase restrictions on freedom of expression;
- inclusion of phrases such as "gender expression" in the text of the proposed act raises concerns about the Government's ability to regulate faith-based content creators;

**Therefore** we, the undersigned citizens and residents of Canada, call upon members of the Senate of Canada to:

- Oppose Bill C-11, the Online Streaming Act

Name (Please Print)	Address	Signature (Canadian citizens or residents only) (Please sign your name, do not print)

Please mail completed petition to: Senator Donald Plett, Senate of Canada, Ottawa, Ontario, Canada, K1A 0A6
