

ONTARIO

ELECTION 2025

The major parties in Ontario have been silent on several important issues. Join us in asking them to respond to the following questions:

LET KIDS BE

Many countries around the world are restricting medical transitioning for minors, including Finland, Sweden, Norway, France, the United Kingdom, Australia, New Zealand, and the United States. Minors in Ontario are not permitted to buy alcohol or vote.

1. Why would we rush children who identify as transgender into a medical transition rather than waiting to see if their gender dysphoria will resolve naturally?
2. Will Ontario follow the lead of Alberta and many international jurisdictions and prohibit puberty blockers, cross-sex hormones, and sex-change surgeries for minors?

CARE NOT KILL

The Ontario Coroner's Office found that Ontarians have been accessing euthanasia due to lack of housing, social, or mental health supports.

1. How will you and your party protect vulnerable Ontarians from euthanasia and provide better supports?
2. How would your government implement better oversight of euthanasia to ensure that doctors are not euthanizing patients who need better supports rather than death?

HOW DO I GET INVOLVED?

Pick one of the questions you'd like to ask your candidate, then reach out to them at: arpacanada.ca/on-election-2025

- A candidates debate
- An open-house with your candidate
- Sending them an email
- Phoning their campaign office
- Having the question ready when they knock on your door
