

PETITION TO THE HOUSE OF COMMONS

Restrict Late-Term Abortion

We, the undersigned citizens and residents of Canada, draw the attention of the House of Commons to the following:

Whereas:

- While most western countries limit abortion after 12 weeks, Canada does not.
- While being vehemently denied by members of the Government that late term abortions happen in Canada, the organization RightNow has exposed that Canada has a dedicated system to provide late term abortion.
- Canada is an outlier among peer democratic countries by having zero restrictions on abortion at any stage, and is one of only four countries in the world with this policy; the others being China, Vietnam, and North Korea.

Therefore we, the undersigned citizens and residents of Canada, call upon the House of Commons to:

- Promote and expand support programs for pregnant women, ensuring they are not left without practical and compassionate alternatives to abortion.
- Enact legislation that restricts or prohibits late-term abortions.
- Establish a national framework to provide greater legal protection for pre-born children.
